

2026년 2월/ KERC

EU Research Career

유럽 주요국 FUNDING & JOB 관련 공고정보

한-EU 연구협력센터(KERC)는 국내 신진연구자들의 유럽 내 연구경력 개발 지원을 위해 유럽 전역의 연구경력개발 관련 정보를 모니터링/ 분석하여 국내 수요에 부합하는 맞춤 정보를 제공하고 있습니다

이번 호는 26년 4-26년 5월 마감되는 공고들을 안내 해 드립니다.

목 차 (Contents)

- 자연과학 분야 (Natural Science)

- 인문사회 분야 (Social Science & Humanities)

- 박사과정 (PhD Positions)

Title	Organisation (Country)	Offer Description	Deadline	Link
RCSI University of Medicine and Health Sciences	RCSI (Ireland)	• Hold a PhD on 15th January 2026, or have defended their PhD and received unconditional approval • Have spent less than 12 months of the previous 36 in Ireland (relaxed / alternative mobility rules apply under certain conditions, and for global fellowships)	2026.4.10.	More Information
Postdoctoral Researcher position : Neuroimaging&Multiple Sclerosis	GIGA Neurosciences (Belgium)	• High motivation, autonomy, and excellent communication skills, with strong collaborative and organizational abilities. • Master's degree (MSc) in a discipline related to the project • Experience with neurological diseases and 7T MRI imaging is highly valued. • Strong statistical and programming skills (e.g., Matlab, R, Python). • Fluency in English is mandatory; proficiency in French is an asset.	2026.4.30.	More Information

Title	Organisation (Country)	Offer Description	Deadline	Link
Postdoc in Thermal Infrared remote sensing	Luxembourg Institute of Science and Technology (Luxembourg)	• Three years' experience in quantitative remote sensing (including PhD research) • Experience and knowledge in VNIR, shortwave infrared, and thermal infrared remote sensing. • Experience and knowledge in LST and ET retrieval using both physical and machine learning-based algorithms. • Strong interpersonal and communication skills and the ability to work both independently and collaboratively with researchers and students from different scientific backgrounds. • Strong statistical and computer skills including demonstrated proficiency with computer coding, such as MATLAB, R, python, and expertise in statistical modelling. • Experience in designing, planning, and conducting experimental procedures, including the ability to meet project goals in a timely manner, and follow through on • project deliverables. • Excellent technical, analytical, organizational, and problem-solving skills. Strong attention to detail, and meticulous work style, as evidenced by previous research. • Excellent English (oral and written) is mandatory.	2026.5.31.	More Information
Postdoctoral Scholarship in Molecular and Behavioral Neuroscience	Linköping University (Sweden)	• Strong expertise in molecular and biochemical techniques, including: Immunoblotting • (q)PCR, (Co-)immunoprecipitation, Microscopy, Epigenetic methods, Proven experience with tissue processing and handling, Excellent skills in rat behavioral testing, particularly fear conditioning, Strong experience in stereotaxic surgeries • Very good written and spoken English • Ability to work independently, think critically, and take initiative	2026.4.30.	More Information

Title	Organisation (Country)	Offer Description	Deadline	Link
Post-doc offer within the Laboratory for Chemistry of Novel Materials	University of Mons (Belgium)	• Highly motivated and talented candidate who wishes to join a dynamic and challenging research environment. • PhD degree in Chemistry/ Organic Chemistry/ Materials Chemistry, and should demonstrate her/his ability to carry out cutting-edge research projects.	2026.4.15.	More Information
Research Engineer Position (Bioinformatics) NGS Data Analysis in Pediatric Oncology	Institut Curie – Research Center (France)	• Ph.D. or equivalent experience in Oncology, Molecular or Cellular Biology, Biotechnology, or related fields • Strong background in molecular biology and/ or translational research with solid quantitative data analysis skills • Knowledge of major public genomic and transcriptomic resources (e.g., TCGA, GTEx, Human Cell Atlas) is an asset • Practical experience with data analysis tools and scripting (e.g., Python, R) • Familiarity with standard NGS workflows and data formats (FASTQ, BAM, VCF) • Ability to work effectively in a collaborative, multidisciplinary and international research environment with strong attention to data quality and reproducibility	2026.4.10.	More Information

Title	Oraganisati on (Country)	Offer Description	Deadline	Link
Assistant Professor (Poland) / POSTDOC 1 (Poland) in 'Re-thinking Queer Kinship: LGBTIQ* Families in Central and Eastern Europe (QUUERSHIP)' project	University of Warsaw (Poland)	• A doctoral degree or equivalent in social sciences (sociology, anthropology, cultural studies, gender studies, queer studies, or related disciplines); • Excellent active command of English and Polish (formal requirement); • Documented research interests and publication record in LGBTIQ* families, queer kinship, gender & sexuality studies, or kinship studies, including articles in international journals related to the project's themes (formal requirement); • Contacts within the LGBTIQ* community in Poland and/or experience collaborating with NGOs working on behalf of LGBTIQ* families and individuals (formal requirement); • Experience in qualitative research, particularly ethnography, in-depth interviews, and longitudinal research; experience in research with children will be an important asset; • Experience in project work, international collaboration, or organizational tasks, as well as the ability to build trust-based research relationships and ethical sensitivity in working with marginalized groups (asset).	2026.4.6.	More Information
Postdoctoral Researcher in the Humanities, Department of History of Philosophy	Institute of Philosophy (Zagreb)	• a CV with a description of previous scientific work, • a list of published scientific, professional, and popular articles, • proof of the academic degree of Doctor of Science (PhD), • a motivation letter, • one scientific paper published or accepted for publication, and a four-year work plan.	2026.5.30.	More Information

Title	Oraganisati on (Country)	Offer Description	Deadline	Link
PhD Student (CeNT- 14- 2026)	University of Warsaw (Poland)	• Confirmed status of a PhD student (on the date of starting work in the project at the latest). • Basic knowledge of molecular and population genetics. • Ability to work in a group, curiosity, and motivation to learn. • Willingness to work in interdisciplinary and international teams. • Fluency in written and spoken English. Additionally appreciated: • Experience in work with ancient DNA. • Experience in high-throughput sequencing on Illumina platforms (i.e. DNA library preparations). • Knowledge of Linux operating system. • Familiarity with bioinformatic analyses of raw sequencing data and genomic analyses are highly valued.	2026.4.24.	More Information
18 PhD positions within MSCA- COFUND MuSkLE- PhD Programme: Building, Maintaining and repairing the functional locomotor system	Université Claude Bernard Lyon 1 (France)	• Must not have lived/ worked/ studied in France for more than 12 months in the last 3 years before the application deadline • Must hold a Master's degree (or equivalent) and not already have a PhD • Strong social and teamwork skills and active participation in the research network • Willingness to travel for research visits, training schools, workshops, and meetings • Good English proficiency	2026.5.6.	More Information
